Quantum-Si Presents its Vision to Transform Genomics and Proteomics Research at ASHG 2023

October 31, 2023

BRANFORD, Conn.--(BUSINESS WIRE)--Oct. 31, 2023-- Quantum-Si Incorporated (Nasdaq: QSI) ("Quantum-Si," "QSI" or the "Company"), The Protein Sequencing Company™, today announced it will showcase next-generation benchtop protein sequencing instrument, Platinum™, and the Company’s vision to transform genomics and proteomics research, at the American Society of Human Genetics (ASHG) conference, in Washington, D.C., November 1-5.

"Platinum stands as a groundbreaking advancement in next-generation protein sequencing™ moving the field beyond the limitations posed by mass spectrometry and immunoassays. This robust tool is a solution, enabling precise, single-molecule resolution," remarked Quantum-Si Chief Executive Officer Jeff Hawkins. He continued, "Platinum is crucial in taking genomic datasets to the next level, enabling subsequent analysis of proteins that can unveil genome-to-proteome links that help to predict phenotype. Platinum will become an essential multi-omics research tool that is missing in today’s workflows."

Quantum-Si will showcase Platinum’s capabilities at Booth #115, where Chief Commercial Officer Grace Johnston, Ph.D., and Jeff Hawkins will be available to discuss the technology and the vital significance of next-generation protein sequencing and proteomics.

Additionally, on Thursday, November 2, at 4:30 p.m., Quantum-Si scientists will present: Unleashing Next-generation Protein Sequencing™ with Platinum™: How it will Transform Genomics and Proteomics Research. They will evaluate the challenges associated with existing proteomics technologies and how Platinum overcomes them.

Platinum is the world’s first next-generation single-molecule protein sequencing platform that uses proprietary recognizers to identify proteins and amino acids using kinetic binding signatures. Its elegant design and simple workflow enable broad-scale access to proteomic data, for every scientist, everywhere, making it a groundbreaking platform for the future of proteomics research. With its small benchtop design and low price-point, Platinum is poised to accelerate breakthroughs across scientific disciplines, from drug discovery to biotech, and help people live healthier and longer lives.

About Quantum-Si Inc.

Quantum-Si, The Protein Sequencing Company™, is focused on revolutionizing the growing field of proteomics. The Company’s suite of technologies is powered by a first-of-its-kind semiconductor chip designed to enable next-generation single-molecule protein sequencing and digitize proteomic research in order to advance drug discovery and diagnostics beyond what has been possible with DNA sequencing. Forward Looking Statements This press release includes “forward-looking statements” within the meaning of the “safe harbor” provisions of the United States Private Securities Litigation Reform Act of 1995. The actual results of the Company may differ from its expectations, estimates, and projections and, consequently, you should not rely on these forward-looking statements as predictions of future events. Words such as “expect,” “estimate,” “project,” “budget,” “forecast,” “anticipate,” “intend,” “plan,” “may,” “will,” “could,” “should,” “believes,” “predicts,” “potential,” “continue,” and similar expressions (or the negative versions of such words or expressions) are intended to identify such forward-looking statements. These forward-looking statements include, without limitation, the Company’s expectations with respect to future performance and development and commercialization of products and services. These forward-looking statements involve significant risks and uncertainties that could cause the actual results to differ materially from those discussed in the forward-looking statements. Most of these factors are outside the Company’s control and are difficult to predict. Factors that may cause such differences include, but are not limited to: the impact of COVID-19 on the Company’s business; the inability to maintain the listing of the Company's Class A common stock on The Nasdaq Stock Market; the ability to recognize the anticipated benefits of the business combination, which may be affected by, among other things, competition and the ability of the Company to grow and manage growth profitably and retain its key employees; our ongoing leadership transition; changes in applicable laws or regulations; the ability of the Company to raise financing in the future; the success, cost and timing of the Company’s product development and commercialization activities; the commercialization and adoption of the Company’s existing products and the success of any product the Company may offer in the future; the potential attributes and benefits of the Company’s commercialized Platinum™ protein sequencing instrument and the Company’s other products once commercialized; the Company’s ability to obtain and maintain regulatory approval for its products, and any related restrictions and limitations of any approved product; the Company’s ability to identify, in-license or acquire additional technology; the Company’s ability to maintain its existing lease, license, manufacture and supply agreements; the Company’s ability to compete with other companies currently marketing or engaged in the development or commercialization of products and services that serve customers engaged in proteomic analysis, many of which have greater financial and marketing resources than the Company; the size and growth potential of the markets for the Company’s products and services, and its ability to serve those markets once commercialized, either alone or in partnership with others; the Company’s financial performance; and other risks and uncertainties described under “Risk Factors” in the Company’s Annual Report for the fiscal year ended December 31, 2022, and in the Company’s other filings with the SEC. The Company cautions that the foregoing list of factors is not exclusive. The Company cautions readers not to place undue reliance upon any forward-looking statements, which speak only as of the date made. The Company does not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in its expectations or any change in events, conditions, or circumstances on which any such statement is based.
