

## Quantum-Si Introduces World's First Next-Generation Protein Sequencer™ in Japan with Addition of New Distributor

January 18, 2024

BRANFORD, Conn.--(BUSINESS WIRE)--Jan. 18, 2024-- [Quantum-Si Incorporated](#) (Nasdaq: QSI) ("Quantum-Si," "QSI" or the "Company"), The Protein Sequencing Company™, today announced that it has entered into an agreement with a new distributor who will make the company's protein sequencing instrument, Platinum® available for the first time in Japan.

TOMY Digital Biology Co., Ltd., a renowned importer and distributor with a rich history dating back to the 1950s, will distribute Quantum-Si's next-generation protein sequencer™ and associated consumables throughout Japan. "Working with Quantum-Si marks a pivotal moment for TOMY Digital Biology, aligning with our commitment to advancing life sciences. We're poised to empower Japanese researchers with cutting edge technology, fostering unparalleled discoveries," said Kenjiro Tominaga, Owner, President and CEO of TOMY Digital Biology.

TOMY Digital Biology's commitment to delivering cutting-edge solutions and its alignment with Quantum-Si's vision for scientific innovation make this a significant step forward in providing researchers in Japan access to state-of-the-art technology for next-generation protein sequencing™.

Jeff Hawkins, CEO of Quantum-Si, expressed his enthusiasm about this move, stating: "We are thrilled to work with TOMY Digital Biology to introduce Platinum, our revolutionary protein sequencing instrument, to the vibrant scientific community in Japan. We believe that through TOMY's exceptional distribution capabilities and our groundbreaking technology, we will empower researchers in Japan to achieve new milestones in their scientific endeavors."

### About Quantum-Si Incorporated

Quantum-Si, The Protein Sequencing Company™, is focused on revolutionizing the growing field of proteomics. The Company's suite of technologies is powered by a first-of-its-kind semiconductor chip designed to enable next-generation single-molecule protein sequencing and digitize proteomic research in order to advance drug discovery and diagnostics beyond what has been possible with DNA sequencing. ### About TOMY Digital Biology Co., Ltd.

TOMY Digital Biology Co., Ltd. spun off from TOMY Seiko, a manufacturer of scientific research instruments in 2001. TOMY Digital Biology has two functions, import and export. One department imports unique life science research products from other countries and distributes them to the Japan market. The other department exports TOMY products to other countries. ### Forward Looking Statements

This press release includes "forward-looking statements" within the meaning of the "safe harbor" provisions of the United States Private Securities Litigation Reform Act of 1995. The actual results of the Company may differ from its expectations, estimates, and projections and, consequently, you should not rely on these forward-looking statements as predictions of future events. Words such as "expect," "estimate," "project," "budget," "forecast," "anticipate," "intend," "plan," "may," "will," "could," "should," "believes," "predicts," "potential," "continue," and similar expressions (or the negative versions of such words or expressions) are intended to identify such forward-looking statements. These forward-looking statements include, without limitation, the Company's expectations with respect to future performance and development and commercialization of products and services. These forward-looking statements involve significant risks and uncertainties that could cause the actual results to differ materially from those discussed in the forward-looking statements. Most of these factors are outside the Company's control and are difficult to predict. Factors that may cause such differences include, but are not limited to: the impact of COVID-19 on the Company's business; the inability to maintain the listing of the Company's Class A common stock on The Nasdaq Stock Market; the ability to recognize the anticipated benefits of the business combination, which may be affected by, among other things, competition and the ability of the Company to grow and manage growth profitably and retain its key employees; our ongoing leadership transition; changes in applicable laws or regulations; the ability of the Company to raise financing in the future; the success, cost and timing of the Company's product development and commercialization activities; the commercialization and adoption of the Company's existing products and the success of any product the Company may offer in the future; the potential attributes and benefits of the Company's commercialized Platinum™ protein sequencing instrument and the Company's other products once commercialized; the Company's ability to obtain and maintain regulatory approval for its products, and any related restrictions and limitations of any approved product; the Company's ability to identify, in-license or acquire additional technology; the Company's ability to maintain its existing lease, license, manufacture and supply agreements; the Company's ability to compete with other companies currently marketing or engaged in the development or commercialization of products and services that serve customers engaged in proteomic analysis, many of which have greater financial and marketing resources than the Company; the size and growth potential of the markets for the Company's products and services, and its ability to serve those markets once commercialized, either alone or in partnership with others; the Company's estimates regarding future expenses, future revenue, capital requirements and needs for additional financing; the Company's financial performance; and other risks and uncertainties described under "Risk Factors" in the Company's Annual Report for the fiscal year ended December 31, 2022, and in the Company's other filings with the SEC. The Company cautions that the foregoing list of factors is not exclusive. The Company cautions readers not to place undue reliance upon any forward-looking statements, which speak only as of the date made. The Company does not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in its expectations or any change in events, conditions, or circumstances on which any such statement is based.
